

'Minari' Actor Yuh-Jung Youn Gives Oscars Speech

Mr. Brad Pitt finally! Nice to meet you. Where were you while we were filming in Tulsa? I'm very honored to meet you.

As you know, I'm from Korea and actually my name is Yuh Jung Youn and most of European people call me Yuh Jung and some of them call me Yu Jung but tonight, you are all forgiven.

I cannot believe that I'm here. Just okay, let me pull myself together. Okay.

Thank you for the .. tremendous thanks to the Academy members that who vote for me and that's the speech okay they usually say "okay thank you for the ...".

Wonderful Minari family. Stephen, Isa, Allen, Ye-Ri and Noel, Allen, we became a family and most of all, overall Lee Isaac Chung, without him I couldn't be here tonight. He was our captain and my director. So, thanks to you. Too many thanks to you.

And I'd like to thank to ... well. See I don't believe in competition. How can I win? Glenn Close? Win over Glenn Close? I've been watching her so many performances. So, this is just all the nominees, five nominees, we are the winner for the different movie, different. We played the different role, so we cannot compete each other.

Tonight, I'm here is just I have just a little bit luck, I think. Maybe I'm luckier than you. And also maybe it's a American hospitality for the Korean actor.

I'm not sure but anyway thank you so much.

And I'd like to thanks to my two boys who made me go out and work. So beloved son all I know. this is the result because mommy worked so hard.

And I'd like to dedicate this award for my first director, Kim Gyeong who was very genius director that I made a movie together with him. First movie. I think he will be very happy if he is still alive. Thank you very much. Tremendous thank you for the everybody.
