

**Lucy**

Here, honey, I'll show you what I mean. Now, you take this book and pretend that our child has come to you and said, "Daddy, read me a good-night story."

**Ricky**

All right.

**Lucy**

There you are, Daddy.

**Ricky**

Once upon a time in the woods live a peasant. He was a good man with a noble heart. He spent his time in the forest cutting down booges from the trees. Cutting wood...

**Lucy**

Wait a minute. Wait, wait, wait, just a minute. What is this "booges?"

**Ricky**

"Booges," right in there.

**Lucy**

That's "boughs." (*large branch*)

**Ricky**

B-O-U-G-H is "bough?"

**Lucy**

Right.

**Ricky**

Bough. He spent his time in the forest cutting down boughs from the trees. Cutting wood all day made his hands strong and row. One day...

**Lucy**

That's "rough."

**Ricky**

Spelled the same way as the other: O-U-G-H.

**Lucy**

That's right. That shows how little you know about the English language.

Ricky

So I made a little mistake. Made his hands strong and rough. One day he cut wood so fast that by 3 o'clock in the afternoon, his day's work was thruff. When the...

Lucy

Hold it, Shakespeare.

Ricky

Thraugh?

Lucy

T-h-r-o-u-g-h is pronounced "through."

Ricky

Through, that's what I always say. Now, stop picking on me, will you? You're getting me all confuse. His day's work was through. It started to rain on the way home, and he got so wet that his nose became red and he developed a hacking... coo? Well, I know it can't be "cow."

Lucy

It's "cough."

Ricky

Oh, that did it. I had enough. Or should I say "enu"? No, enough. Enough. I don't see why you have to have such a crazy language anyway. In Spanish you don't have all those "ow," "oh," "oo," "off," "oof" sounds. In Spanish, you got a sound, it sounds the same all the time. You write it the same way, it sounds the same way. No matter where you put it, it comes out the same way.

- - - -

## Practice

### Vocabulary

Lucy uses four difficult words when she tries to speak "correctly". Match them to their synonym

- *plethora*
- *enervating*
- *sloppy*
- *scintillating*
- *not careful*
- *exciting*
- *tiring, exhausting*
- *many*

## Pronunciation

Ricky said these words. Do you remember the correct words? Can you write and pronounce them?

- "bogges" \_\_\_\_\_
- "row" \_\_\_\_\_
- "thruff" \_\_\_\_\_
- "coo" \_\_\_\_\_
- "enu" \_\_\_\_\_

*"It's a crazy language!"*

## 7 Pronunciations of 'OUGH' with International Phonetic Alphabet (IPA) symbols

1. In these words <ough> sounds like the ~aw in **saw**. IPA= ɔ: Adding a < t > at the end makes /ɔ:t/

bought /bɔ:t/  
brought /brɔ:t/  
thought /θɔ:t/  
fought /fɔ:t/

This spelling pattern occurs in a few Past Simple verbs, like the common examples above, but also in the less-used verbs **sought** (from seek), **wrought** (from an old version of 'work'). We also find it in **ought** and **nought**. The < gh > is silent.

Students should be careful not to confuse the < ht > at the end with < th >. Sometimes students say **bought** as /bɔ:θ/ instead of /bɔ:t/.

2. These words rhyme with **off** IPA= /ɒf/

cough /kɒf/  
trough /trɒf/

A **trough** is a long, narrow container that animals eat or drink out of.  
A **trough** is also the opposite of a **peak** in graphs.

3. These rhyme with **stuff** IPA= /ʌf/

rough /rʌf/  
tough /tʌf/  
enough /ɪ'nʌf/

If you ever need to go to **Loughborough**, make sure you pronounce the first **ough** as /ʌf/ and the second as /ə/. The < o > in < bo > is dropped, which gives the overall pronunciation of /'lʌfbrə/.

4. These rhyme with **go**. The < gh > is silent. IPA= /əʊ/

dough /dəʊ/  
though /ðəʊ/  
although /ɔ:t'ðəʊ/

5. Rhymes with **too** /u:/

through /θru:/

6. The ough sound in these words is the **schwa** sound IPA= /ə/

borough /'bʌrə/  
thorough /'θʌrə/

In these words, the stress falls on the first syllable and therefore the < ough > is only said as a schwa /ə/. Despite the number of letters used in < ough >, it is NOT the important part of the word, so remember to make it weak.

7. In these words the ough sound is like the ~ow in **cow** IPA= /aʊ/

bough /baʊ/  
plough /plaʊ/  
slough /slaʊ/

A **bough** is the main branch of a tree, a **plough** is piece of farming equipment to turn the soil and a **slough** is a swamp, or, a situation where nothing much is happening.

Unfortunately these multiple pronunciations of < ough > have historical origins and there's not much to do but memorise which one has which sound - good luck!

Spelling list: ough words

Ough words have many different sounds:

dough We need to knead the dough to make bread.

though He kept running even though he was tired.

although Although it was raining, the children still wanted to go out to play.
