

The Paypal Song

Dinosaurs, dodo birds and giant sideburns
Here are more things that should vanish earth
Wasting your time, just standing in line
And big fat wallets, it hurts your mind
Endless forms, when you're shopping online
Security worries, weigh on your mind
PayPal can see off, all of these things
All these annoyances that each day brings.
If dinosaurs ever decide to return ...
They'll see that people
Are now ruling the earth.
