# THE WATER CYCLE

The water we have on Earth is all we will ever have. The water cycle is the process of water cycling around Earth as collection, precipitation, condensation and evaporation. Research these terms and explain them in your own words.

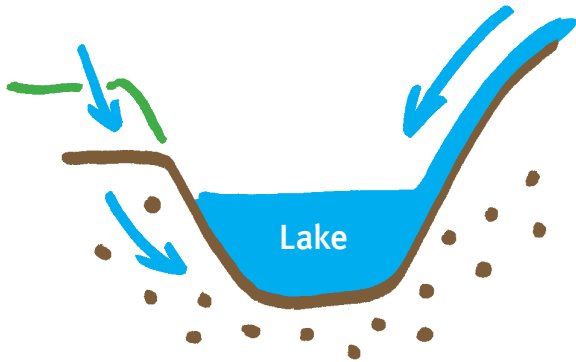

condensation

evaporation

precipitation

# Water cycle

Print and cut out the water cycle key words and images. On each table place the jumbled up cards. The pupils need to match the picture to the word.

**Run off**

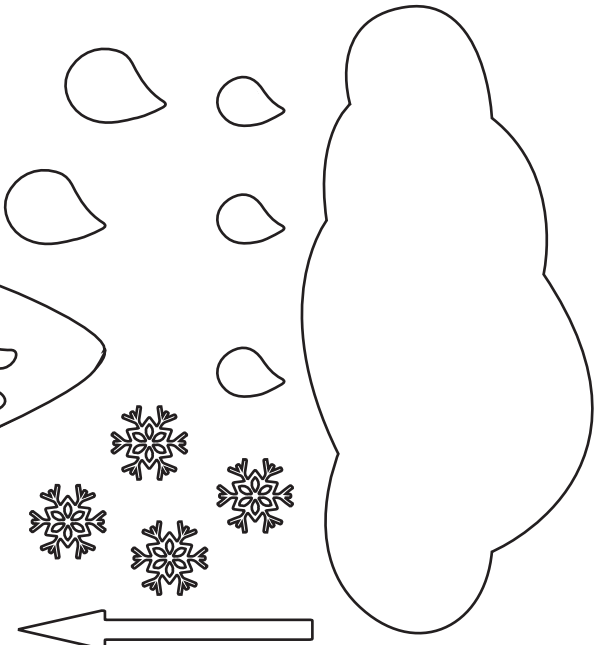

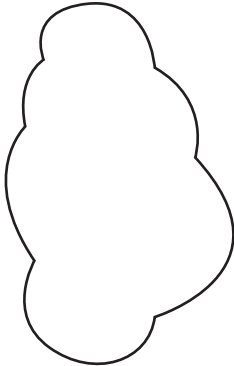

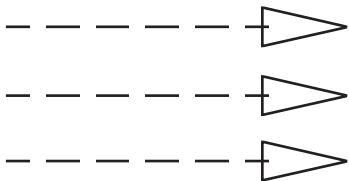

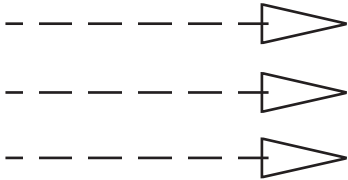

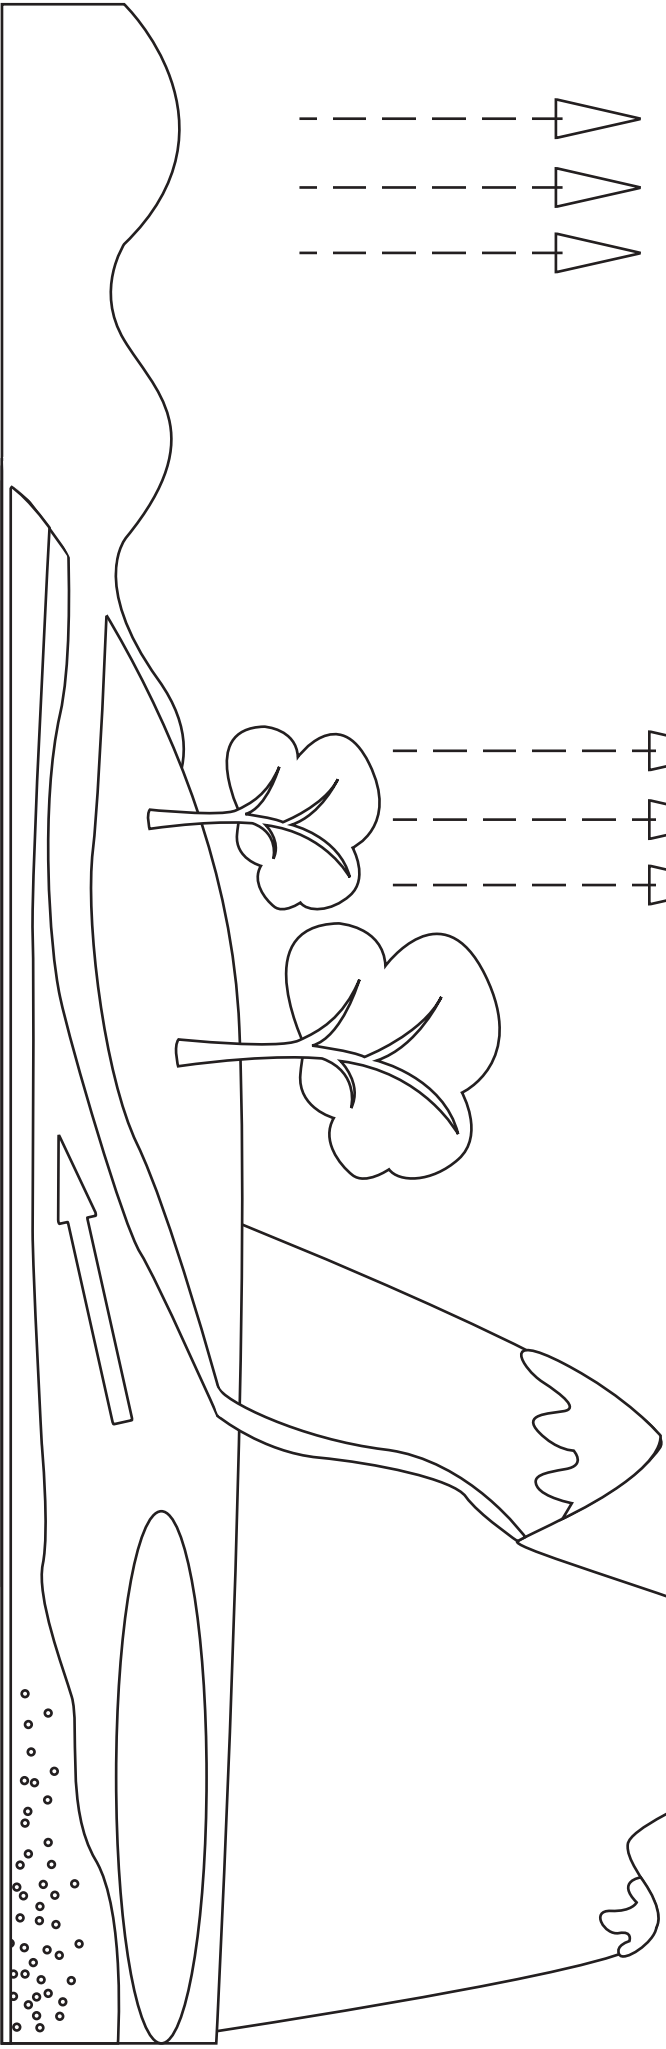

**Evaporation**

**Condensation**

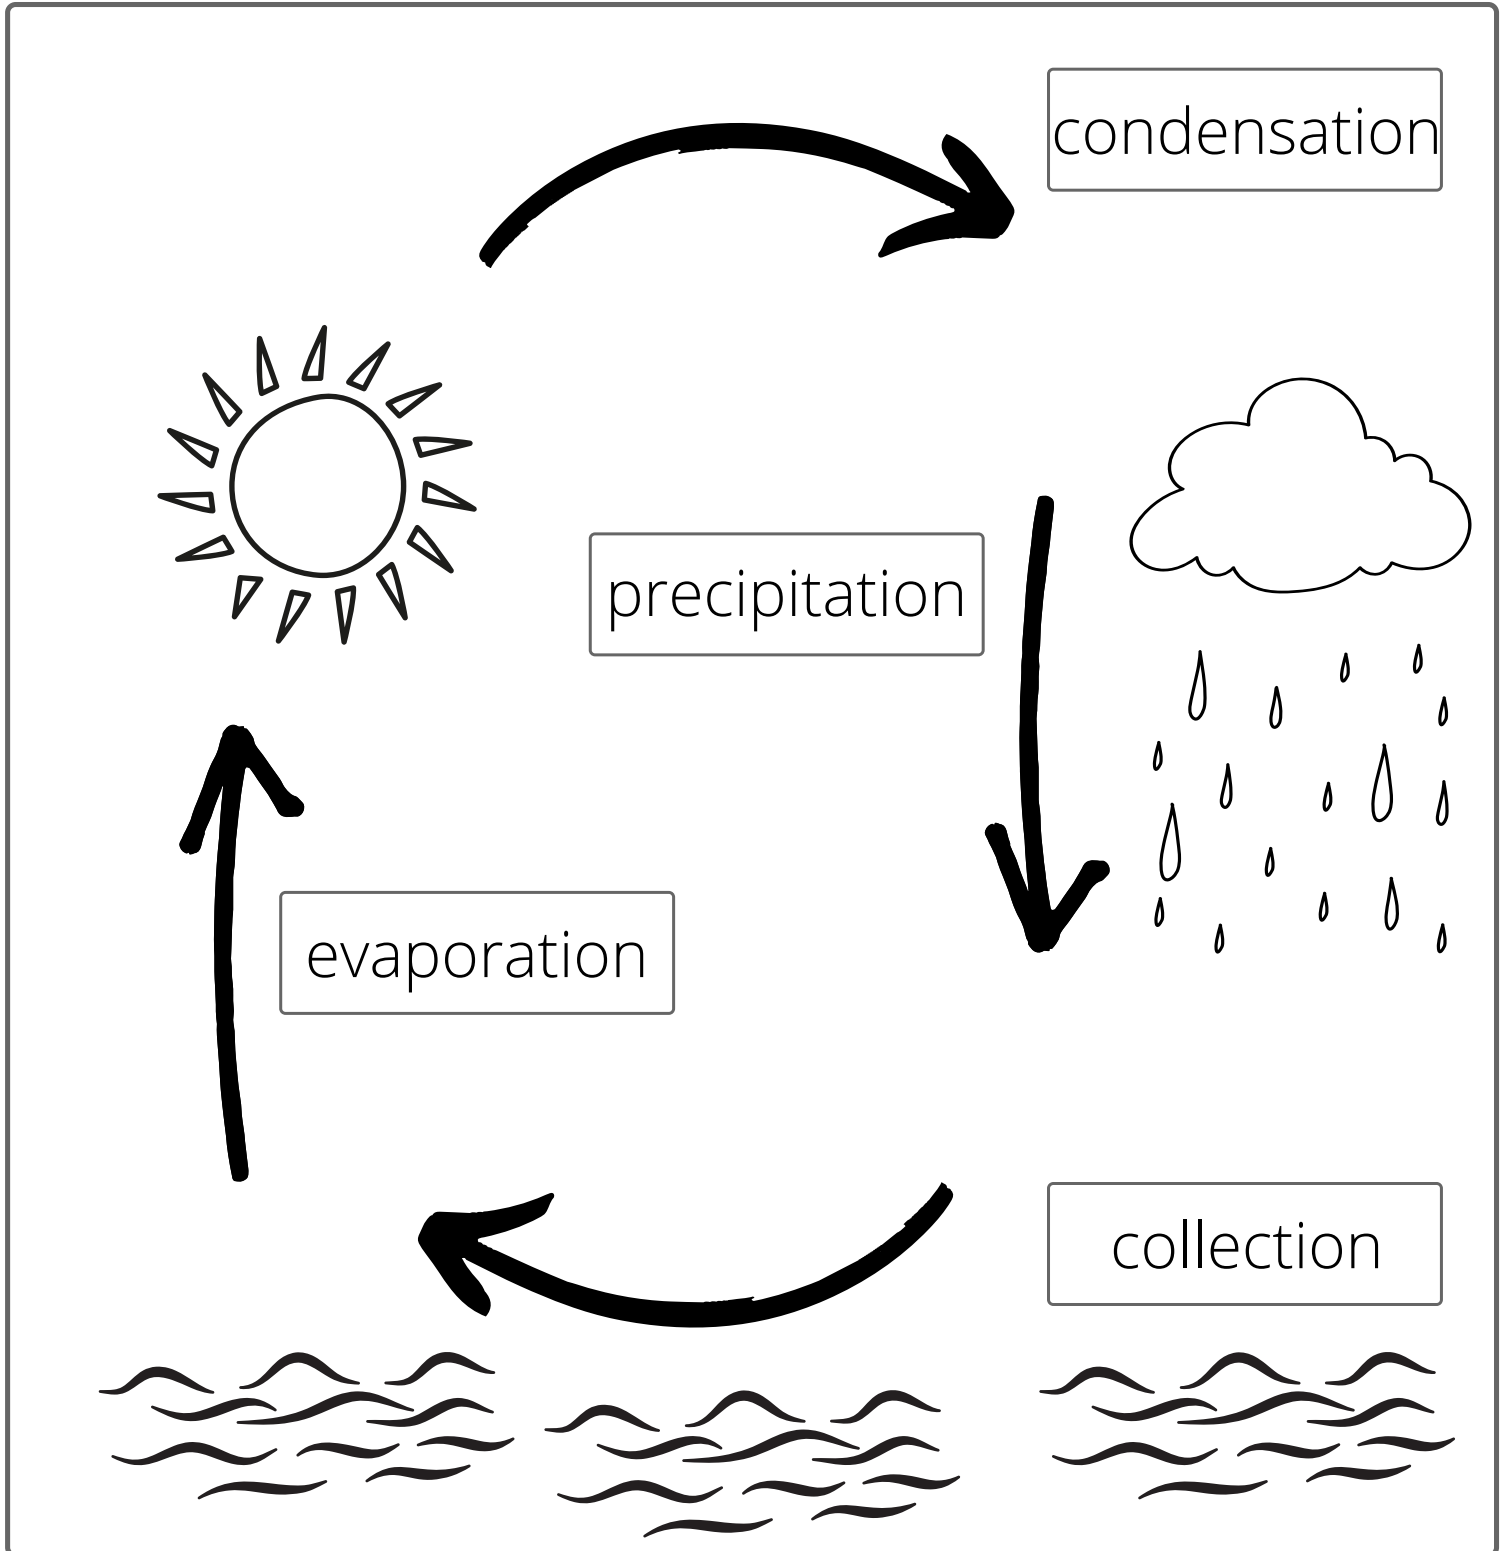

**Precipitation**
