

# THE GIFT OF THE MAGI

A modern Christmas story.

This is Jim and Della. They are in love. But they are broke. They don't have any money. There is no food in their refrigerator.

They live in a small one bedroom apartment. Rent and food eat up almost all of their salaries.

Tomorrow is Christmas. Della wonders how she can buy her Jim a Christmas present?

Della was surfing the internet that afternoon. She saw an ad and had a brilliant idea! She would sell her ipad for money. Then she would be able to buy her Jim a Christmas present!

She put her iPad up for sale on eBay. It sold in minutes! She cried when she got the message and agreed to the sale. She wrapped it up and delivered it immediately in person to save money.

Now Della had money to buy Jim a nice Christmas present. She took the bus back home and went shopping online for Jim's present.

That night after a long day at work, Jim came home. After dinner Della said, "Merry Christmas Jim!" Here is your Christmas present. I bought you a year unlimited data plan, so you can share video and call your family, speak as long as you want.

Jim was surprised. "Oh Della!" "I sold my phone!" "I was broke. I needed money to buy you a present." I bought you a whole year of Disney plus so you could enjoy your favorite programs.

Della held Jim's arm and gave him a kiss. She said, "Jim, I sold my ipad to buy you your present." "It doesn't matter. Merry Christmas. We have each other. Let's enjoy each other." **"The present IS our present."**

And that's how Della and Jim discovered the true meaning of Christmas. The gift of the Magi.
